

Measuring Length

Exit Ticket 8.1: Longer and shorter

Name _____ Exit Ticket 8.1

1. Circle the longer one.

2. Circle the shorter one.

I can tell which one
is longer or shorter.

Name _____ Exit Ticket 8.1

1. Circle the longer one.

2. Circle the shorter one.

I can tell which one
is longer or shorter.

Name _____ Exit Ticket 8.1

1. Circle the longer one.

2. Circle the shorter one.

I can tell which one
is longer or shorter.

Name _____ Exit Ticket 8.1

1. Circle the longer one.

2. Circle the shorter one.

I can tell which one
is longer or shorter.

Measuring Length

Exit Ticket 8.2: Order three things by length

Name _____ Exit Ticket 8.2

1. Write 1, 2, 3 from shortest to longest.

2. Circle the longest one.

I can order things by length.

Name _____ Exit Ticket 8.2

1. Write 1, 2, 3 from shortest to longest.

2. Circle the longest one.

I can order things by length.

Name _____ Exit Ticket 8.2

1. Write 1, 2, 3 from shortest to longest.

2. Circle the longest one.

I can order things by length.

Name _____ Exit Ticket 8.2

1. Write 1, 2, 3 from shortest to longest.

2. Circle the longest one.

I can order things by length.

Measuring Length

Exit Ticket 8.3: Compare two lengths using a third

Name _____ Exit Ticket 8.3

1. Use the string. Which is longer?

nail

marker

2. Use the string. Which is shorter?

crayon

worm

I can use a string to
compare two lengths.

Name _____ Exit Ticket 8.3

1. Use the string. Which is longer?

nail

marker

2. Use the string. Which is shorter?

crayon

worm

I can use a string to
compare two lengths.

Name _____ Exit Ticket 8.3

1. Use the string. Which is longer?

nail

marker

2. Use the string. Which is shorter?

crayon

worm

I can use a string to
compare two lengths.

Name _____ Exit Ticket 8.3

1. Use the string. Which is longer?

nail

marker

2. Use the string. Which is shorter?

crayon

worm

I can use a string to
compare two lengths.

Measuring Length

Exit Ticket 8.4: Same-size units, no gaps, no overlaps

Name _____ Exit Ticket 8.4

1. Circle the right way to measure.

2. This is not right. What is wrong?

gaps

overlaps

I can measure with no
gaps and no overlaps.

Name _____ Exit Ticket 8.4

1. Circle the right way to measure.

2. This is not right. What is wrong?

gaps

overlaps

I can measure with no
gaps and no overlaps.

Name _____ Exit Ticket 8.4

1. Circle the right way to measure.

2. This is not right. What is wrong?

gaps

overlaps

I can measure with no
gaps and no overlaps.

Name _____ Exit Ticket 8.4

1. Circle the right way to measure.

2. This is not right. What is wrong?

gaps

overlaps

I can measure with no
gaps and no overlaps.

Measuring Length

Exit Ticket 8.5: Measure with cubes and paper clips

Name _____ Exit Ticket 8.5

1. How many cubes long is the worm?

_____ cubes

2. How many paper clips long is the pencil?

_____ paper clips

I can measure with
cubes and paper clips.

Name _____ Exit Ticket 8.5

1. How many cubes long is the worm?

_____ cubes

2. How many paper clips long is the pencil?

_____ paper clips

I can measure with
cubes and paper clips.

Name _____ Exit Ticket 8.5

1. How many cubes long is the worm?

_____ cubes

2. How many paper clips long is the pencil?

_____ paper clips

I can measure with
cubes and paper clips.

Name _____ Exit Ticket 8.5

1. How many cubes long is the worm?

_____ cubes

2. How many paper clips long is the pencil?

_____ paper clips

I can measure with
cubes and paper clips.

Measuring Length

Exit Ticket 8.6: Bigger unit, smaller count

Name _____ Exit Ticket 8.6

1. Write both lengths. Circle the unit you needed more of.

_____ cubes

_____ clips

I needed more ☐ cubes ☐ clips

2. To measure a shoe, which do you need fewer of?

cubes

paper clips

I can tell that a bigger unit gives a smaller count.

Name _____ Exit Ticket 8.6

1. Write both lengths. Circle the unit you needed more of.

_____ cubes

_____ clips

I needed more ☐ cubes ☐ clips

2. To measure a shoe, which do you need fewer of?

cubes

paper clips

I can tell that a bigger unit gives a smaller count.

Name _____ Exit Ticket 8.6

1. Write both lengths. Circle the unit you needed more of.

_____ cubes

_____ clips

I needed more ☐ cubes ☐ clips

2. To measure a shoe, which do you need fewer of?

cubes

paper clips

I can tell that a bigger unit gives a smaller count.

Name _____ Exit Ticket 8.6

1. Write both lengths. Circle the unit you needed more of.

_____ cubes

_____ clips

I needed more ☐ cubes ☐ clips

2. To measure a shoe, which do you need fewer of?

cubes

paper clips

I can tell that a bigger unit gives a smaller count.

Measuring Length

Exit Ticket 8.7: Measure with an inch ruler

Name _____ Exit Ticket 8.7

1. How many inches long is the leaf?

_____ inches

2. How many inches long is the key?

_____ inches

I can measure with an inch ruler. 😊 😐 ☹️

Name _____ Exit Ticket 8.7

1. How many inches long is the leaf?

_____ inches

2. How many inches long is the key?

_____ inches

I can measure with an inch ruler. 😊 😐 ☹️

Name _____ Exit Ticket 8.7

1. How many inches long is the leaf?

_____ inches

2. How many inches long is the key?

_____ inches

I can measure with an inch ruler. 😊 😐 ☹️

Name _____ Exit Ticket 8.7

1. How many inches long is the leaf?

_____ inches

2. How many inches long is the key?

_____ inches

I can measure with an inch ruler. 😊 😐 ☹️

Measuring Length

Exit Ticket 8.8: Compare weight and capacity

Name _____ Exit Ticket 8.8

1. Circle the heavier one.

2. Circle the one that holds more.

pitcher

cup

I can tell which is heavier
and which holds more.

Name _____ Exit Ticket 8.8

1. Circle the heavier one.

2. Circle the one that holds more.

pitcher

cup

I can tell which is heavier
and which holds more.

Name _____ Exit Ticket 8.8

1. Circle the heavier one.

2. Circle the one that holds more.

pitcher

cup

I can tell which is heavier
and which holds more.

Name _____ Exit Ticket 8.8

1. Circle the heavier one.

2. Circle the one that holds more.

pitcher

cup

I can tell which is heavier
and which holds more.

Measuring Length

Exit Ticket 8.1: Longer and shorter

Name _____ Exit Ticket 8.1

1. Circle the longer one.**2. Circle the shorter one.**I can tell which one
is longer or shorter.

Name _____ Exit Ticket 8.1

1. Circle the longer one.**2. Circle the shorter one.**I can tell which one
is longer or shorter.

Name _____ Exit Ticket 8.1

1. Circle the longer one.**2. Circle the shorter one.**I can tell which one
is longer or shorter.

Name _____ Exit Ticket 8.1

1. Circle the longer one.**2. Circle the shorter one.**I can tell which one
is longer or shorter.

Measuring Length

Exit Ticket 8.2: Order three things by length

Name _____ Exit Ticket 8.2

1. Write 1, 2, 3 from shortest to longest.

2

1

3

2. Circle the longest one.

I can order things by length.

Name _____ Exit Ticket 8.2

1. Write 1, 2, 3 from shortest to longest.

2

1

3

2. Circle the longest one.

I can order things by length.

Name _____ Exit Ticket 8.2

1. Write 1, 2, 3 from shortest to longest.

2

1

3

2. Circle the longest one.

I can order things by length.

Name _____ Exit Ticket 8.2

1. Write 1, 2, 3 from shortest to longest.

2

1

3

2. Circle the longest one.

I can order things by length.

Measuring Length

Exit Ticket 8.3: Compare two lengths using a third

Name _____ Exit Ticket 8.3

1. Use the string. Which is longer?

nail

marker

2. Use the string. Which is shorter?

crayon

worm

I can use a string to
compare two lengths.

Name _____ Exit Ticket 8.3

1. Use the string. Which is longer?

nail

marker

2. Use the string. Which is shorter?

crayon

worm

I can use a string to
compare two lengths.

Name _____ Exit Ticket 8.3

1. Use the string. Which is longer?

nail

marker

2. Use the string. Which is shorter?

crayon

worm

I can use a string to
compare two lengths.

Name _____ Exit Ticket 8.3

1. Use the string. Which is longer?

nail

marker

2. Use the string. Which is shorter?

crayon

worm

I can use a string to
compare two lengths.

Measuring Length

Exit Ticket 8.4: Same-size units, no gaps, no overlaps

Name _____ Exit Ticket 8.4

1. Circle the right way to measure.

A

B

C

2. This is not right. What is wrong?

gaps

overlaps

I can measure with no gaps and no overlaps.

Name _____ Exit Ticket 8.4

1. Circle the right way to measure.

A

B

C

2. This is not right. What is wrong?

gaps

overlaps

I can measure with no gaps and no overlaps.

Name _____ Exit Ticket 8.4

1. Circle the right way to measure.

A

B

C

2. This is not right. What is wrong?

gaps

overlaps

I can measure with no gaps and no overlaps.

Name _____ Exit Ticket 8.4

1. Circle the right way to measure.

A

B

C

2. This is not right. What is wrong?

gaps

overlaps

I can measure with no gaps and no overlaps.

Measuring Length

Exit Ticket 8.5: Measure with cubes and paper clips

Name _____ Exit Ticket 8.5

1. How many cubes long is the worm?

7 cubes

2. How many paper clips long is the pencil?

5 paper clips

I can measure with
cubes and paper clips.

Name _____ Exit Ticket 8.5

1. How many cubes long is the worm?

7 cubes

2. How many paper clips long is the pencil?

5 paper clips

I can measure with
cubes and paper clips.

Name _____ Exit Ticket 8.5

1. How many cubes long is the worm?

7 cubes

2. How many paper clips long is the pencil?

5 paper clips

I can measure with
cubes and paper clips.

Name _____ Exit Ticket 8.5

1. How many cubes long is the worm?

7 cubes

2. How many paper clips long is the pencil?

5 paper clips

I can measure with
cubes and paper clips.

Measuring Length

Exit Ticket 8.6: Bigger unit, smaller count

Name _____ Exit Ticket 8.6

1. Write both lengths. Circle the unit you needed more of.

6 cubes
3 clips

I needed more ☒ cubes ☐ clips

2. To measure a shoe, which do you need fewer of?

☐ cubes ☒ paper clips

I can tell that a bigger unit gives a smaller count. 😊 😐 😞

Name _____ Exit Ticket 8.6

1. Write both lengths. Circle the unit you needed more of.

6 cubes
3 clips

I needed more ☒ cubes ☐ clips

2. To measure a shoe, which do you need fewer of?

☐ cubes ☒ paper clips

I can tell that a bigger unit gives a smaller count. 😊 😐 😞

Name _____ Exit Ticket 8.6

1. Write both lengths. Circle the unit you needed more of.

6 cubes
3 clips

I needed more ☒ cubes ☐ clips

2. To measure a shoe, which do you need fewer of?

☐ cubes ☒ paper clips

I can tell that a bigger unit gives a smaller count. 😊 😐 😞

Name _____ Exit Ticket 8.6

1. Write both lengths. Circle the unit you needed more of.

6 cubes
3 clips

I needed more ☒ cubes ☐ clips

2. To measure a shoe, which do you need fewer of?

☐ cubes ☒ paper clips

I can tell that a bigger unit gives a smaller count. 😊 😐 😞

Measuring Length

Exit Ticket 8.7: Measure with an inch ruler

Name _____ Exit Ticket 8.7

1. How many inches long is the leaf?

2 inches

2. How many inches long is the key?

3 inches

I can measure with an inch ruler.

Name _____ Exit Ticket 8.7

1. How many inches long is the leaf?

2 inches

2. How many inches long is the key?

3 inches

I can measure with an inch ruler.

Name _____ Exit Ticket 8.7

1. How many inches long is the leaf?

2 inches

2. How many inches long is the key?

3 inches

I can measure with an inch ruler.

Name _____ Exit Ticket 8.7

1. How many inches long is the leaf?

2 inches

2. How many inches long is the key?

3 inches

I can measure with an inch ruler.

Measuring Length

Exit Ticket 8.8: Compare weight and capacity

Name _____ Exit Ticket 8.8

1. Circle the heavier one.

2. Circle the one that holds more.

pitcher

cup

I can tell which is heavier
and which holds more.

Name _____ Exit Ticket 8.8

1. Circle the heavier one.

2. Circle the one that holds more.

pitcher

cup

I can tell which is heavier
and which holds more.

Name _____ Exit Ticket 8.8

1. Circle the heavier one.

2. Circle the one that holds more.

pitcher

cup

I can tell which is heavier
and which holds more.

Name _____ Exit Ticket 8.8

1. Circle the heavier one.

2. Circle the one that holds more.

pitcher

cup

I can tell which is heavier
and which holds more.
