December

January

June

May

January is month number

of the year.

Draw something you like to do in January.

# All About February

Answer the questions about February.

Which season is February in?  
Circle it.

How many days does February have?

days

How does the weather usually feel in February? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before February in **red**.

Circle the month that comes after February in **blue**.

October

March

February

November

August

January

February is month number

of the year.

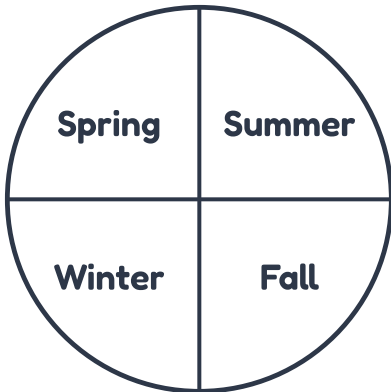

Draw something you like to do in February.

# All About March

Answer the questions about March.

Which season is March in? Circle it.

How many days does March have?

days

How does the weather usually feel in March? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before March in **red**.

Circle the month that comes after March in **blue**.

January

July

December

February

April

March

March is month number

of the year.

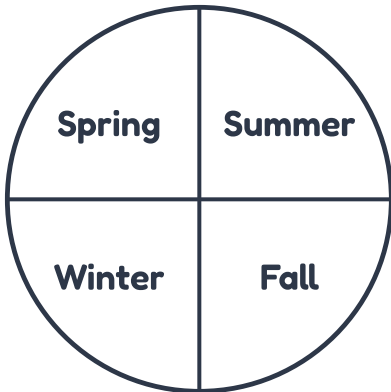

Draw something you like to do in March.

# All About April

Answer the questions about April.

Which season is April in? Circle it.

How many days does April have?

days

How does the weather usually feel in April? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before April in **red**.

Circle the month that comes after April in **blue**.

September

April

March

May

October

January

April is month number

of the year.

Draw something you like to do in April.

# All About May

Answer the questions about May.

Which season is May in? Circle it.

How many days does May have?

days

How does the weather usually feel in May? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before May in **red**.

Circle the month that comes after May in **blue**.

July

April

January

May

February

June

May is month number

of the year.

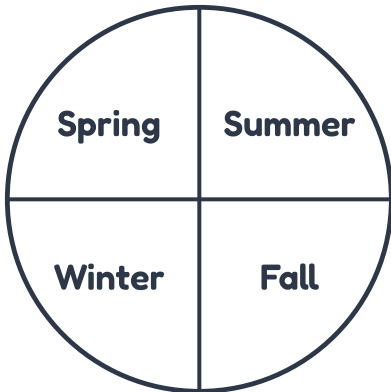

Draw something you like to do in May.

# All About June

Answer the questions about June.

Which season is June in? Circle it.

How many days does June have?

days

How does the weather usually feel in June? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before June in **red**.

Circle the month that comes after June in **blue**.

February

July

May

October

June

March

June is month number

of the year.

Draw something you like to do in June.

# All About July

Answer the questions about July.

Which season is July in? Circle it.

How many days does July have?

days

How does the weather usually feel in July? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before July in **red**.

Circle the month that comes after July in **blue**.

December

April

September

July

June

August

July is month number

of the year.

Draw something you like to do in July.

# All About August

Answer the questions about August.

Which season is August in?  
Circle it.

How many days does August have?

days

How does the weather usually feel in August? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before August in **red**.

Circle the month that comes after August in **blue**.

December

March

April

July

September

August

August is month number

of the year.

Draw something you like to do in August.

# All About September

Answer the questions about September.

Which season is September in?  
Circle it.

How many days does September have?

days

How does the weather usually feel in September? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before September in **red**.

Circle the month that comes after September in **blue**.

April

January

March

August

September

October

September is month number

of the year.

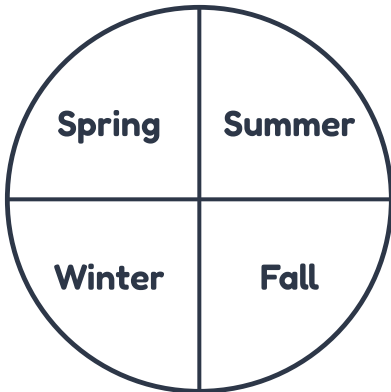

Draw something you like to do in  
September.

# All About October

Answer the questions about October.

Which season is October in?  
Circle it.

How many days does October have?

days

How does the weather usually feel in October? Circle one.

Chilly

Cold

Warm

Hot

Circle the month that comes before October in **red**.

Circle the month that comes after October in **blue**.
