

Area by Counting Squares

Count the squares to find the area of each rectangle.

 = 1 square unit

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area by Counting Squares

Count the squares to find the area of each shape.

 = 1 square unit

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area by Counting Squares

Find each area. Circle the shape with the greater area.

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area = _____ square units

Area by Counting Squares

Draw each shape on the grid. Shade its squares.

Draw a rectangle with an area of 6 square units.

Draw a rectangle with an area of 10 square units.

Draw a square with an area of 9 square units.

Draw a rectangle with an area of 12 square units.

Draw a shape that is not a rectangle with an area of 8 square units.

Draw two different rectangles that each have an area of 8 square units.

Area by Counting Squares

Each square is a different unit. Find each area.

□ = 1 square inch

Area = _____ square inches

□ = 1 square centimeter

Area = _____ square centimeters

□ = 1 square foot

Area = _____ square feet

□ = 1 square meter

Area = _____ square meters

□ = 1 square inch

Area = _____ square inches

□ = 1 square centimeter

Area = _____ square centimeters

Area by Counting Squares

Count the squares to find the area of each rectangle.

 = 1 square unit

Area = 6 square units

Area = 12 square units

Area = 10 square units

Area = 20 square units

Area = 14 square units

Area = 9 square units

Area by Counting Squares

Count the squares to find the area of each shape.

 = 1 square unit

Area = 7 square units

Area = 16 square units

Area = 14 square units

Area = 10 square units

Area = 12 square units

Area = 18 square units

Area by Counting Squares

Find each area. Circle the shape with the greater area.

Area = 14 square units

Area = 12 square units

Area = 8 square units

Area = 9 square units

Area = 16 square units

Area = 15 square units

Area by Counting Squares

Draw each shape on the grid. Shade its squares.

Draw a rectangle with an area of 6 square units.

One answer

Draw a rectangle with an area of 10 square units.

One answer

Draw a square with an area of 9 square units.

Draw a rectangle with an area of 12 square units.

One answer

Draw a shape that is not a rectangle with an area of 8 square units.

One answer

Draw two different rectangles that each have an area of 8 square units.

One answer

Area by Counting Squares

Each square is a different unit. Find each area.

□ = 1 square inch

Area = 18 square inches

□ = 1 square centimeter

Area = 14 square centimeters

□ = 1 square foot

Area = 25 square feet

□ = 1 square meter

Area = 18 square meters

□ = 1 square inch

Area = 24 square inches

□ = 1 square centimeter

Area = 20 square centimeters
