Name _____ Date _____

Compare Two Texts

Listen to both texts. Circle one animal, the other, or both.

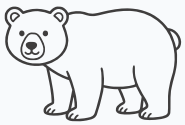

Read aloud: Text 1

Polar Bears

Polar bears live far in the north, where it is very cold. Their thick white fur helps them hide in the snow and ice. Polar bears are great swimmers. They hunt seals to eat.

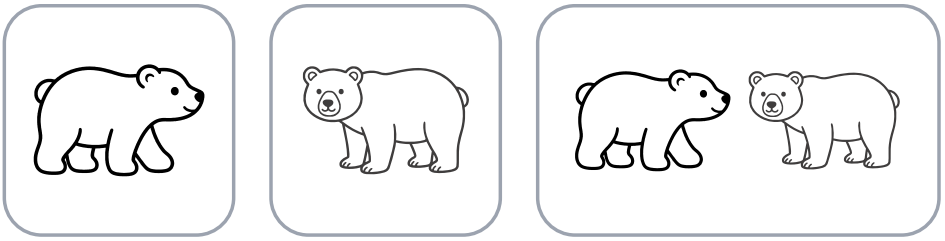

Read aloud: Text 2

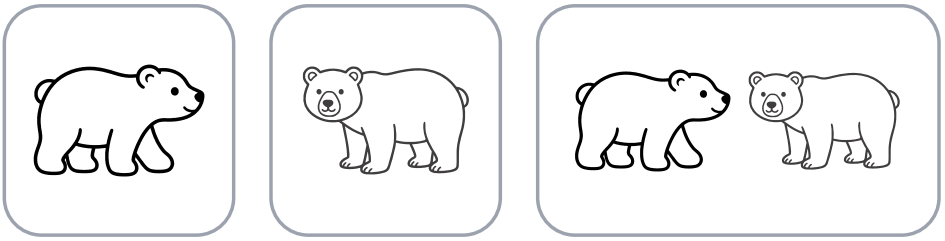

Brown Bears

Brown bears live in forests and mountains. Their fur is brown. They eat many kinds of food: grass, berries, roots, and fish. Brown bears can swim, too. They catch fish in rivers.

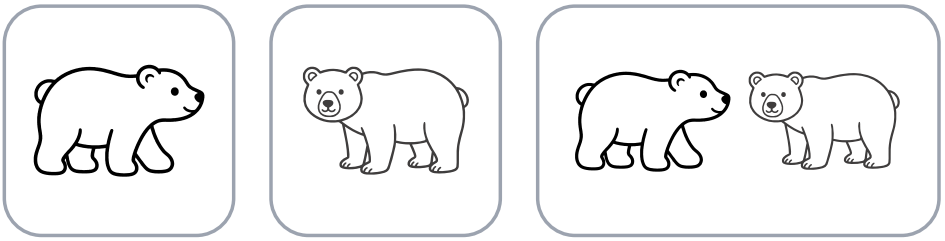

1 Which bear has white fur?

2 Which bear eats grass and berries?

3 Which bears can swim?

Compare Two Texts

Listen to both texts. Circle one animal, the other, or both.

Read aloud: Text 1

Frogs

Most frogs have smooth, wet skin. Frogs live in or near water. A frog has long back legs, and it can take big leaps. Frogs eat bugs.

Read aloud: Text 2

Toads

Toads have dry, bumpy skin. Many toads live on land, away from the water. A toad has shorter back legs, so it takes small hops. Toads eat bugs, too.

1 Which one has dry, bumpy skin?

2 Which one takes big leaps?

3 Which ones eat bugs?

Compare Two Texts

Listen to both texts. Circle one animal, the other, or both.

Read aloud: Text 1

Bees

A bee is an insect. It has six legs and four wings, and its body is fuzzy. A bee drinks sweet nectar from flowers. Some bees can sting.

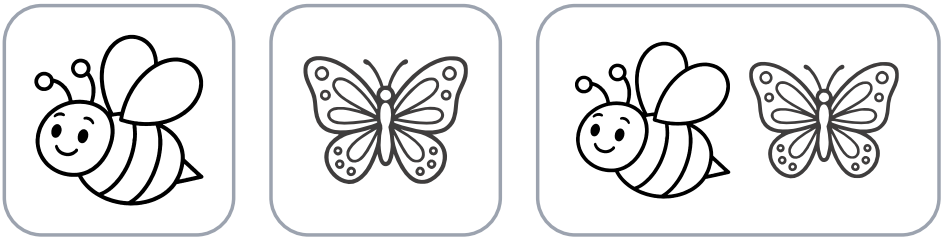

Read aloud: Text 2

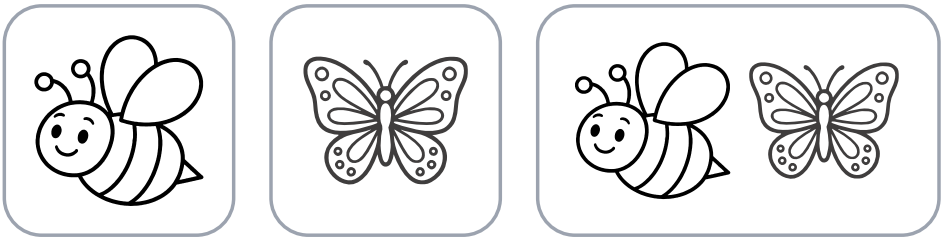

Butterflies

A butterfly is an insect. It has six legs and four big, colorful wings. A butterfly drinks sweet nectar from flowers through a long tube, like a straw. When it was young, it was a caterpillar.

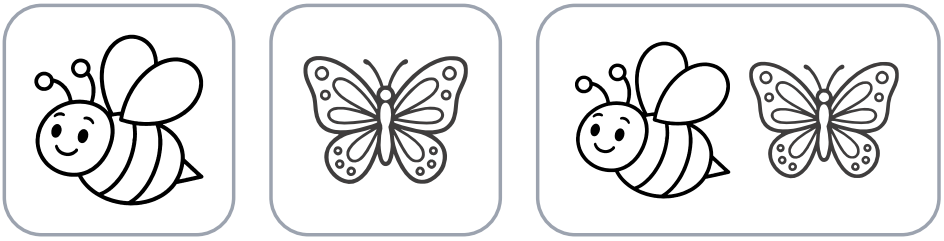

1 Which one can sting?

2 Which one was a caterpillar when it was young?

3 Which ones drink nectar from flowers?

Name _____ Date _____

Listen and Answer

For the grown-up: read both texts aloud. The questions are on the next page.

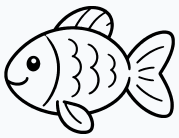

Read aloud: Text 1

Whales

A whale lives in the sea, but it is not a fish. A whale breathes air. It swims up to the top of the water and breathes through a blowhole on top of its head. A mother whale feeds her baby milk.

Read aloud: Text 2

Fish

A fish lives in the water. It breathes with gills, so it can stay under the water all the time. Fins help it swim and steer. Most fish lay eggs.

For the grown-up

Read both texts aloud.
The questions are on the next page.
