

# Decompose to Subtract

Break apart the number and subtract step by step.

$$250 - 15 = \underline{\quad}$$

$$250 - \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$649 - 15 = \underline{\quad}$$

$$649 - \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$598 - 44 = \underline{\quad}$$

$$598 - \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$793 - 51 = \underline{\quad}$$

$$793 - \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$459 - 31 = \underline{\quad}$$

$$459 - \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$874 - 71 = \underline{\quad}$$

$$874 - \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$348 - 43 = \underline{\quad}$$

$$348 - \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$468 - 73 = \underline{\quad}$$

$$468 - \underline{\quad} - \underline{\quad} = \underline{\quad}$$

# Decompose to Subtract

Break apart the number and subtract step by step.

$$250 - 15 = 235$$

$$250 - 10 - 5 = 235$$

$$649 - 15 = 634$$

$$649 - 10 - 5 = 634$$

$$598 - 44 = 554$$

$$598 - 40 - 4 = 554$$

$$793 - 51 = 742$$

$$793 - 50 - 1 = 742$$

$$459 - 31 = 428$$

$$459 - 30 - 1 = 428$$

$$874 - 71 = 803$$

$$874 - 70 - 1 = 803$$

$$348 - 43 = 305$$

$$348 - 40 - 3 = 305$$

$$468 - 73 = 395$$

$$468 - 70 - 3 = 395$$
