

Division Equal Groups

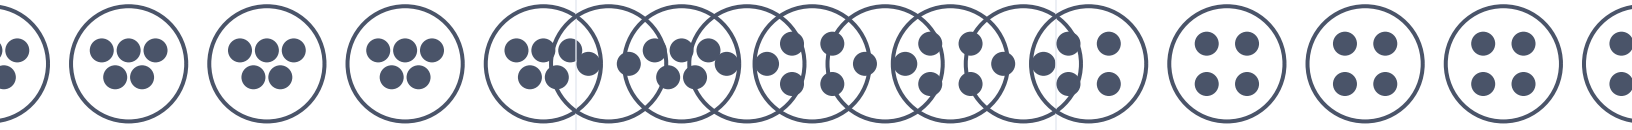

Write the division equation for each picture.

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

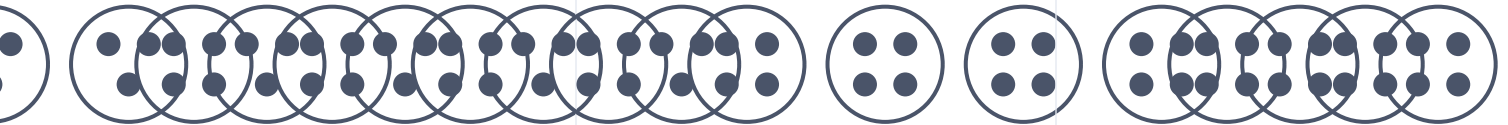

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

Division Equal Groups

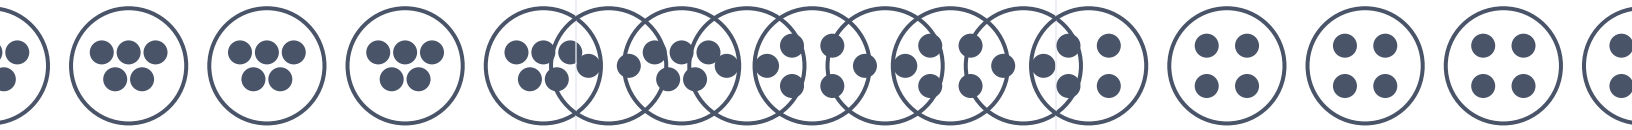

Write the division equation for each picture.

$$\underline{10} \div \underline{5} = \underline{2}$$

$$\underline{12} \div \underline{3} = \underline{4}$$

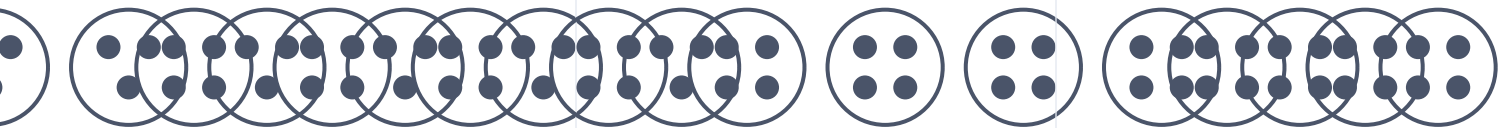

$$\underline{24} \div \underline{6} = \underline{4}$$

$$\underline{30} \div \underline{6} = \underline{5}$$

$$\underline{8} \div \underline{4} = \underline{2}$$

$$\underline{32} \div \underline{8} = \underline{4}$$

$$\underline{18} \div \underline{6} = \underline{3}$$

$$\underline{40} \div \underline{10} = \underline{4}$$

$$\underline{8} \div \underline{2} = \underline{4}$$
