

Division Equal Groups

Write the division equation for each picture.

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

Division Equal Groups

Write the division equation for each picture.

$$\underline{6} \div \underline{3} = \underline{2}$$

$$\underline{8} \div \underline{4} = \underline{2}$$

$$\underline{15} \div \underline{5} = \underline{3}$$

$$\underline{15} \div \underline{3} = \underline{5}$$

$$\underline{12} \div \underline{3} = \underline{4}$$

$$\underline{10} \div \underline{5} = \underline{2}$$

$$\underline{12} \div \underline{4} = \underline{3}$$

$$\underline{20} \div \underline{5} = \underline{4}$$

$$\underline{10} \div \underline{2} = \underline{5}$$
