For the grown-up: read this text aloud. The questions are on the next page.

Read aloud

Ants

Ants are small insects. They live together in big groups called colonies. Many ants live in nests under the ground. They dig long tunnels with lots of rooms.

A queen ant lays the eggs. The other ants are workers. They find food, carry it home and take care of the young ants. Ants are very strong for their size. An ant can carry things much heavier than itself!
