Name _____ Date _____

Paper Airplanes

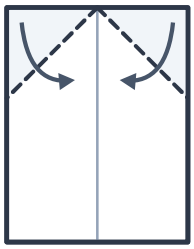

Fold a paper airplane. Follow the steps in order.

1

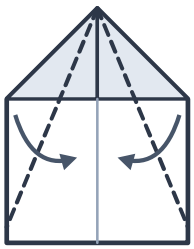

Fold the paper in half the long way. Then open it up.

2

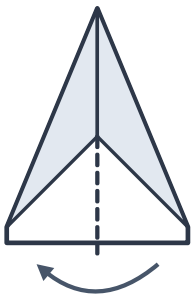

Fold the two top corners in to the middle line.

3

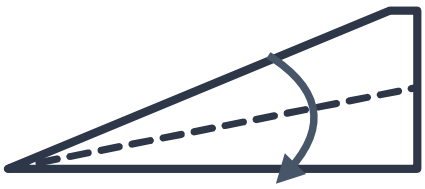

Fold the new slanted edges in to the middle line too.

4

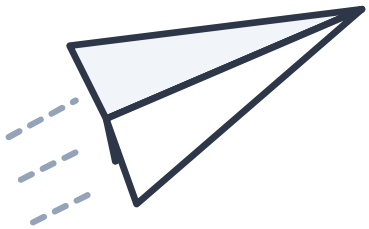

Fold the plane in half on the middle line.

5

Fold one wing down so its top edge meets the bottom edge. Turn the plane over and do the same.

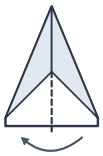

6

Open the wings out flat. Hold the plane under its middle, and throw it gently.

Name _____ Date _____

Paper Airplanes

Test your plane. Change one thing at a time.

Throw your plane and count how many steps it flew. Then change one thing, like the wing folds, and try again.

	Steps it flew	What I changed	What happened

Name _____ Date _____

Paper Airplanes

Write a story in three parts. Draw each part.

A paper airplane flies out of an open window and goes on an adventure!

Beginning Who made the plane? How did it get away?

Middle Where does it fly? What does it see?

End Where does it land at the end?
