

Setting the Table

Each table is a group. Write how many places in all.

Example

1.

2 groups of 4 = 8

2 × 4 = 8

2.

___ groups of ___ = ___

___ × ___ = ___

3.

___ groups of ___ = ___

___ × ___ = ___

4.

___ groups of ___ = ___

___ × ___ = ___

5.

___ groups of ___ = ___

___ × ___ = ___

Setting the Table

Write each array as rows. Then write two $\times$ facts.

Example

1.

$$\underline{2} \text{ rows of } \underline{5} = \underline{10}$$

$$\underline{2} \times \underline{5} = \underline{10}$$

$$\underline{5} \times \underline{2} = \underline{10}$$

2.

$$\underline{\quad} \text{ rows of } \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

3.

$$\underline{\quad} \text{ rows of } \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

4.

$$\underline{\quad} \text{ rows of } \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

5.

$$\underline{\quad} \text{ rows of } \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

Setting the Table

Share equally. Draw them. Write a division sentence.

Example

1. Share 24 rolls in 6 baskets.

24 ÷ 6 = 4 rolls each

2. Share 15 slices on 3 plates.

 ÷ = slices each

3. Share 28 apples in 4 baskets.

 ÷ = apples each

4. Share 16 rolls on 2 plates.

 ÷ = rolls each

5. Share 30 slices on 6 plates.

 ÷ = slices each

6. Share 21 apples in 7 baskets.

 ÷ = apples each

Setting the Table

Circle equal groups. Write a division sentence.

Example

1. 32 guests. 4 sit at each table.
How many tables?

$$32 \div 4 = 8 \text{ tables}$$

2. 18 slices of pie. 3 on each plate.
How many plates?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ plates}$$

3. 35 rolls. 5 in each basket.
How many baskets?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ baskets}$$

4. 20 ears of corn. 2 in each pot.
How many pots?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ pots}$$

5. 16 apples. 4 in each apple pie.
How many pies?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ pies}$$

6. 25 pies. 5 go on each table.
How many tables?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ tables}$$

Setting the Table

Write the four facts for each pie fact family.

Example

1.

$$3 \times 4 = 12$$

$$4 \times 3 = 12$$

$$12 \div 3 = 4$$

$$12 \div 4 = 3$$

2.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

3.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

4.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

5.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

6.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

Setting the Table

Read each problem. Multiply or divide to solve.

1.

Aunt May sets up **6** tables. She puts **9** plates on each table. How many plates does she use?

_____ plates

2.

Grandpa bakes **56** rolls. He puts **8** rolls in each basket. How many baskets does he fill?

_____ baskets

3.

Mia bakes **7** pumpkin pies. She cuts each pie into **10** slices. How many slices are there?

_____ slices

4.

45 guests are coming to dinner. **5** guests sit at each table. How many tables are needed?

_____ tables

5.

The cook makes **60** scoops of mashed potatoes. She shares them equally in **6** bowls. How many scoops go in each bowl?

_____ scoops

6.

Mom sets **2** long tables with **10** places each. Then she sets **6** places at the kids' table. How many places does she set in all?

_____ places

Setting the Table

Each table is a group. Write how many places in all.

Example

1.

2 groups of 4 = 8

2 × 4 = 8

2.

___ groups of ___ = ___

___ × ___ = ___

3.

___ groups of ___ = ___

___ × ___ = ___

4.

___ groups of ___ = ___

___ × ___ = ___

5.

___ groups of ___ = ___

___ × ___ = ___

Setting the Table

Write each array as rows. Then write two $\times$ facts.

Example

1.

$$\underline{2} \text{ rows of } \underline{5} = \underline{10}$$

$$\underline{2} \times \underline{5} = \underline{10}$$

$$\underline{5} \times \underline{2} = \underline{10}$$

2.

$$\underline{\quad} \text{ rows of } \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

3.

$$\underline{\quad} \text{ rows of } \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

4.

$$\underline{\quad} \text{ rows of } \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

5.

$$\underline{\quad} \text{ rows of } \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

Setting the Table

Share equally. Draw them. Write a division sentence.

Example

1. Share 24 rolls in 6 baskets.

24 ÷ 6 = 4 rolls each

2. Share 15 slices on 3 plates.

 ÷ = slices each

3. Share 28 apples in 4 baskets.

 ÷ = apples each

4. Share 16 rolls on 2 plates.

 ÷ = rolls each

5. Share 30 slices on 6 plates.

 ÷ = slices each

6. Share 21 apples in 7 baskets.

 ÷ = apples each

Setting the Table

Circle equal groups. Write a division sentence.

Example

1. 32 guests. 4 sit at each table.
How many tables?

$$32 \div 4 = 8 \text{ tables}$$

2. 18 slices of pie. 3 on each plate.
How many plates?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ plates}$$

3. 35 rolls. 5 in each basket.
How many baskets?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ baskets}$$

4. 20 ears of corn. 2 in each pot.
How many pots?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ pots}$$

5. 16 apples. 4 in each apple pie.
How many pies?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ pies}$$

6. 25 pies. 5 go on each table.
How many tables?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad} \text{ tables}$$

Setting the Table

Write the four facts for each pie fact family.

Example

1.

$$3 \times 4 = 12$$

$$4 \times 3 = 12$$

$$12 \div 3 = 4$$

$$12 \div 4 = 3$$

2.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

3.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

4.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

5.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

6.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

Setting the Table

Read each problem. Multiply or divide to solve.

1.

Aunt May sets up **6** tables. She puts **9** plates on each table. How many plates does she use?

_____ plates

2.

Grandpa bakes **56** rolls. He puts **8** rolls in each basket. How many baskets does he fill?

_____ baskets

3.

Mia bakes **7** pumpkin pies. She cuts each pie into **10** slices. How many slices are there?

_____ slices

4.

45 guests are coming to dinner. **5** guests sit at each table. How many tables are needed?

_____ tables

5.

The cook makes **60** scoops of mashed potatoes. She shares them equally in **6** bowls. How many scoops go in each bowl?

_____ scoops

6.

Mom sets **2** long tables with **10** places each. Then she sets **6** places at the kids' table. How many places does she set in all?

_____ places

Setting the Table

Each table is a group. Write how many places in all.

Example

1.

$$\underline{2} \text{ groups of } \underline{4} = \underline{8}$$

$$\underline{2} \times \underline{4} = \underline{8}$$

2.

$$\underline{3} \text{ groups of } \underline{6} = \underline{18}$$

$$\underline{3} \times \underline{6} = \underline{18}$$

3.

$$\underline{4} \text{ groups of } \underline{5} = \underline{20}$$

$$\underline{4} \times \underline{5} = \underline{20}$$

4.

$$\underline{5} \text{ groups of } \underline{3} = \underline{15}$$

$$\underline{5} \times \underline{3} = \underline{15}$$

5.

$$\underline{2} \text{ groups of } \underline{7} = \underline{14}$$

$$\underline{2} \times \underline{7} = \underline{14}$$

Setting the Table

Write each array as rows. Then write two $\times$ facts.

Example

1.

$$\underline{2} \text{ rows of } \underline{5} = \underline{10}$$

$$\underline{2} \times \underline{5} = \underline{10}$$

$$\underline{5} \times \underline{2} = \underline{10}$$

2.

$$\underline{3} \text{ rows of } \underline{7} = \underline{21}$$

$$\underline{3} \times \underline{7} = \underline{21}$$

$$\underline{7} \times \underline{3} = \underline{21}$$

3.

$$\underline{4} \text{ rows of } \underline{6} = \underline{24}$$

$$\underline{4} \times \underline{6} = \underline{24}$$

$$\underline{6} \times \underline{4} = \underline{24}$$

4.

$$\underline{2} \text{ rows of } \underline{9} = \underline{18}$$

$$\underline{2} \times \underline{9} = \underline{18}$$

$$\underline{9} \times \underline{2} = \underline{18}$$

5.

$$\underline{4} \text{ rows of } \underline{8} = \underline{32}$$

$$\underline{4} \times \underline{8} = \underline{32}$$

$$\underline{8} \times \underline{4} = \underline{32}$$

Setting the Table

Share equally. Draw them. Write a division sentence.

Example

1. Share 24 rolls in 6 baskets.

$$24 \div 6 = 4 \text{ rolls each}$$

2. Share 15 slices on 3 plates.

$$15 \div 3 = 5 \text{ slices each}$$

3. Share 28 apples in 4 baskets.

$$28 \div 4 = 7 \text{ apples each}$$

4. Share 16 rolls on 2 plates.

$$16 \div 2 = 8 \text{ rolls each}$$

5. Share 30 slices on 6 plates.

$$30 \div 6 = 5 \text{ slices each}$$

6. Share 21 apples in 7 baskets.

$$21 \div 7 = 3 \text{ apples each}$$

Setting the Table

Circle equal groups. Write a division sentence.

Example

1. 32 guests. 4 sit at each table.
How many tables?

$$32 \div 4 = 8 \text{ tables}$$

2. 18 slices of pie. 3 on each plate.
How many plates?

$$18 \div 3 = 6 \text{ plates}$$

3. 35 rolls. 5 in each basket.
How many baskets?

$$35 \div 5 = 7 \text{ baskets}$$

4. 20 ears of corn. 2 in each pot.
How many pots?

$$20 \div 2 = 10 \text{ pots}$$

5. 16 apples. 4 in each apple pie.
How many pies?

$$16 \div 4 = 4 \text{ pies}$$

6. 25 pies. 5 go on each table.
How many tables?

$$25 \div 5 = 5 \text{ tables}$$

Setting the Table

Write the four facts for each pie fact family.

Example

1.

$$\begin{array}{l} \underline{3} \times \underline{4} = \underline{12} \\ \underline{4} \times \underline{3} = \underline{12} \\ \underline{12} \div \underline{3} = \underline{4} \\ \underline{12} \div \underline{4} = \underline{3} \end{array}$$

2.

$$\begin{array}{l} \underline{4} \times \underline{9} = \underline{36} \\ \underline{9} \times \underline{4} = \underline{36} \\ \underline{36} \div \underline{4} = \underline{9} \\ \underline{36} \div \underline{9} = \underline{4} \end{array}$$

3.

$$\begin{array}{l} \underline{6} \times \underline{7} = \underline{42} \\ \underline{7} \times \underline{6} = \underline{42} \\ \underline{42} \div \underline{6} = \underline{7} \\ \underline{42} \div \underline{7} = \underline{6} \end{array}$$

4.

$$\begin{array}{l} \underline{6} \times \underline{8} = \underline{48} \\ \underline{8} \times \underline{6} = \underline{48} \\ \underline{48} \div \underline{6} = \underline{8} \\ \underline{48} \div \underline{8} = \underline{6} \end{array}$$

5.

$$\begin{array}{l} \underline{7} \times \underline{9} = \underline{63} \\ \underline{9} \times \underline{7} = \underline{63} \\ \underline{63} \div \underline{7} = \underline{9} \\ \underline{63} \div \underline{9} = \underline{7} \end{array}$$

6.

$$\begin{array}{l} \underline{8} \times \underline{9} = \underline{72} \\ \underline{9} \times \underline{8} = \underline{72} \\ \underline{72} \div \underline{8} = \underline{9} \\ \underline{72} \div \underline{9} = \underline{8} \end{array}$$

Setting the Table

Read each problem. Multiply or divide to solve.

1.

Aunt May sets up **6** tables. She puts **9** plates on each table. How many plates does she use?

54 plates

2.

Grandpa bakes **56** rolls. He puts **8** rolls in each basket. How many baskets does he fill?

7 baskets

3.

Mia bakes **7** pumpkin pies. She cuts each pie into **10** slices. How many slices are there?

70 slices

4.

45 guests are coming to dinner. **5** guests sit at each table. How many tables are needed?

9 tables

5.

The cook makes **60** scoops of mashed potatoes. She shares them equally in **6** bowls. How many scoops go in each bowl?

10 scoops

6.

Mom sets **2** long tables with **10** places each. Then she sets **6** places at the kids' table. How many places does she set in all?

26 places
